 <https://github.com/spillproof98>

### PROFESSIONAL SUMMARY

Dedicated Full-Stack Developer with nearly 4 years of experience in designing and implementing innovative web applications, proficient in both front-end and back-end technologies, and committed to building scalable, user-focused digital products that enhance performance and user experience.

### WORK EXPERIENCE

#### Slooh

January 2025 – May 2025  
Chennai

Frontend Developer

- Implemented and integrated Satellite Page APIs to display real-time satellite data, enhancing user engagement with live Earth and space observation features.
- Revamped the telescope selection interface to improve overall usability.
- Integrated Redux state management library, converting hardcoded data into dynamic, scalable state-driven components.

#### Agraga

August 2024 – December 2024  
Chennai

Junior Full - Stack Developer

- Designed and maintained Agraga's logistics platform using React JS.
- Integrated REST APIs for advanced functionalities.
- Leveraged tools such as Git and AWS for reliable, scalable deployments.
- Automated route optimization and real-time booking processes to enhance client experience.

#### Blue Moon Fibre Tech Private Limited

August 2021 – July 2024  
Chennai

Associate Developer

- Designed and developed full-stack applications for FRP/GRP tank design calculations, ensuring compliance with industry standards.
- Monitored application performance and managed issue tracking to maintain smooth operation.
